

Bach Diep

Full Stack Web Developer

San Diego, CA (remote) | [LinkedIn](#) | 619-855-5897 | bachdiep.dev@gmail.com | bndiep.github.io/portfolio

EDUCATION

San Diego Mesa College

Informal post-bacc

- Related courses: Intro to Java, Intro to HTML/CSS

University of California, Berkeley

B.A. Integrative Biology

San Diego, CA

2015-2017

Berkeley, CA

2011-2015

WORK EXPERIENCE

Vizer Inc.

Junior Developer Intern

San Diego, CA (remote)

Nov 2020 - Jan 2021

- Exceeded technical mentors' expectations by writing comprehensive Ruby RSpec tests with Factory Bot for 95% of the mobile app's backend models in a team setting within a week.
- Incorporated Detox for automated end-to-end testing of the app's user login, registration flow, and permissions stack, identifying and resolving bugs in the legacy code.
- Initiated the development of a backend admin tool to pinpoint users with duplicate emails in Active Admin in order to allow admin users to merge user accounts.
- Orchestrated the conversion of React Native class components into functional components by authoring a Google spreadsheet to document the interns' progress and implementing those changes, thereby updating the codebase to follow modern conventions

LEARN Academy

Web Developer

San Diego, CA (remote)

Aug 2020 - Jan 2021

- Completed 480+ hours of project-based learning, developing full stack applications in pair and mob programming settings to encourage collaboration and effective communication.
- Gained proficiency in JavaScript, Ruby, React, and Ruby on Rails while practicing Test-Driven-Development.
- Volunteered as a teaching assistant from 2020-21 to mentor prospective LEARN Academy students on how to build a treasure hunt game in HTML, CSS, and JavaScript over the course of three days.

Din Tai Fung

Greeter

San Diego, CA

May 2019 - Aug 2020

- Designated as the main hosting trainer, empowering over a dozen employees to excel in the company's rigorous standard operating procedures and values, while providing consistently immaculate service for over 150 parties per shift within a fast-paced environment.
- Masterfully trained new greeters and bussers in optimum guest satisfaction from the very beginning through the end of their guest experience.
- Earned a 100% Secret Shopper score for the greeting department three months in a row.

LEADERSHIP EXPERIENCE

Essteem Equalithon (Hackathon)

Team Lead/Frontend Developer

Remote

April 2021

- Fostered creativity, inclusivity, and adaptive problem solving within a team across different time zones to produce a minimalistic mockup and demo of the Advancing Justice portal site during a week-long hackathon.
- Personally awarded the Team Leader badge, as well as performance-based team achievements for Design Thinking: methodical approaches to design, Feature Prioritizing: specifying the features of the minimum-viable-product, and User Experience: outlining the user stories and user experience for the project.
